# Blackberry Flavoring - Oil Soluble

## Application and mixing

Recipes requiring oil-soluble blackberry flavor in a compatible oil or fat base.

Use a formula compatible with the recipe. Oil-soluble and water-soluble products are not automatically interchangeable. This concentrate contributes flavor or color; it does not replace structural recipe ingredients.

## Use guidance

General flavoring starting guidance: 0.3-0.6% of total recipe weight (1.5-3 g in a 500 g batch). This is not a product-specific validated specification; product directions take precedence. Test the finished recipe before scaling.

## Processing limits

Follow the current product directions; validate performance in the intended recipe and processing conditions. No numerical temperature or stability limit is established by this sheet.

## Quality and document requests

For a lot-specific Certificate of Analysis, provide the product name and lot shown on your bottle. Request the current formula-specific SDS and manufacturer-confirmed INCI declaration separately. This technical sheet does not certify cosmetic suitability or establish a safety classification.

## Storage and handling

Follow the current bottle label and product-specific instructions. Numerical storage limits and shelf life are not established by this sheet.

## Declared ingredients
